

The University of Texas at San  
Antonio  
Applied Demography Society  
Alumni Lecture Series

October 21, 2014  
San Antonio, TX

# Mission

The Office of the State Demographer disseminates demographic and related socioeconomic data to the State of Texas and the general public. The State Demographer's Office monitors demographic and socioeconomic changes in the State in order to better inform the executive and legislative branches of Texas government. Special emphasis is placed on data that may be useful to policy makers in dealing with issues regarding the demand for state services.

---

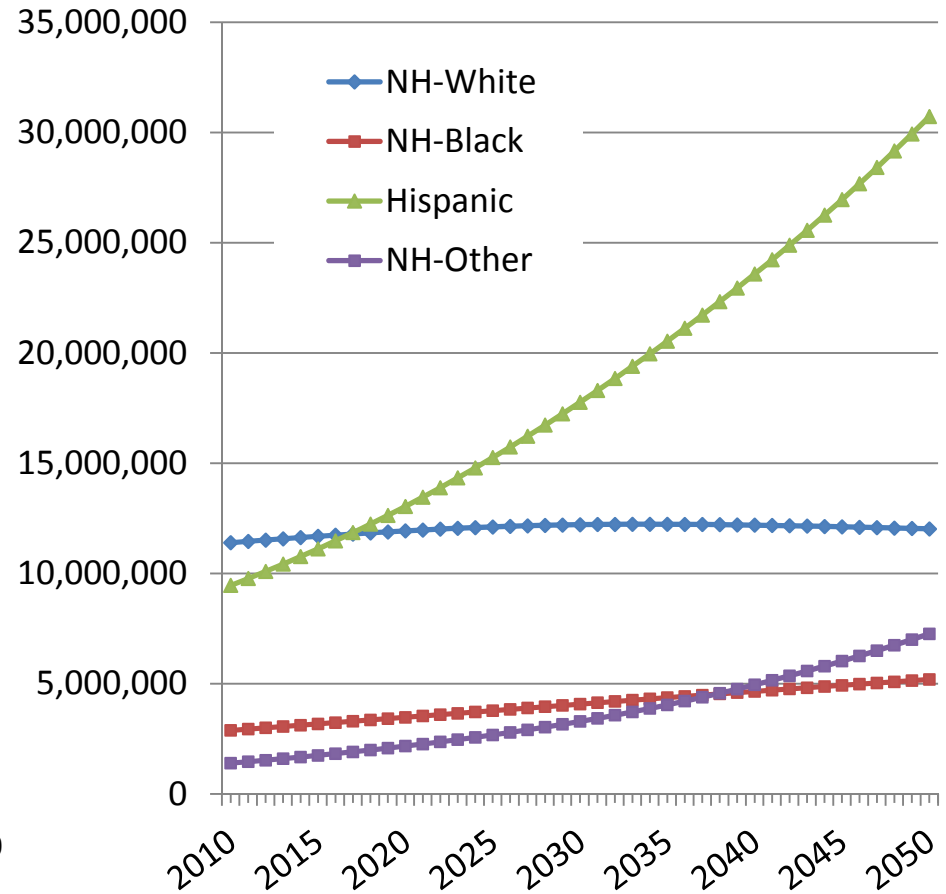

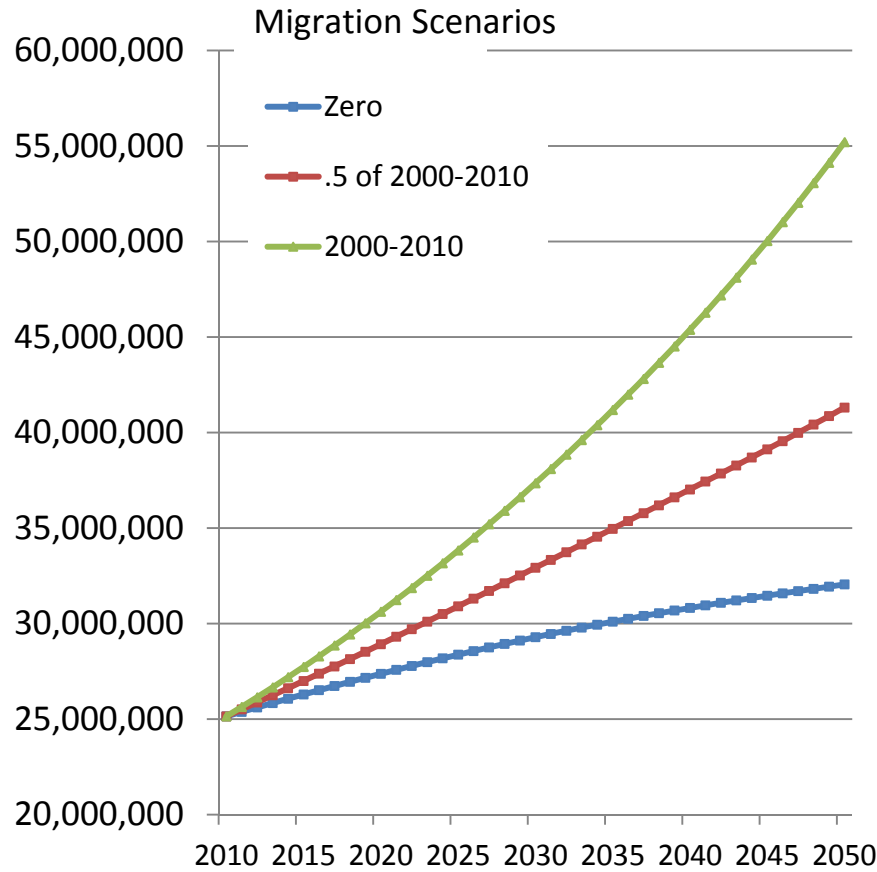

# Meeting the Mission

- Data Portal, Publications, and Reports  
<http://txsdc.utsa.edu/>
  - Population Estimates and Projections Program  
<http://txsdc.utsa.edu/Data/TPEPP/Estimates/Index.aspx>
  - Resource Witness at Legislative Hearings
  - Public Presentations  
<http://osd.state.tx.us>
  - Data Requests
  - Custom Research Projects
  - Annual Conference for Data Users and Applied Demography Conference
-

# Population Projections, Texas, 2010 - 2050

Population Projections by Race/Ethnicity  
2000-2010 Migration Scenario

## Policy Areas Impacted by Texas Demography

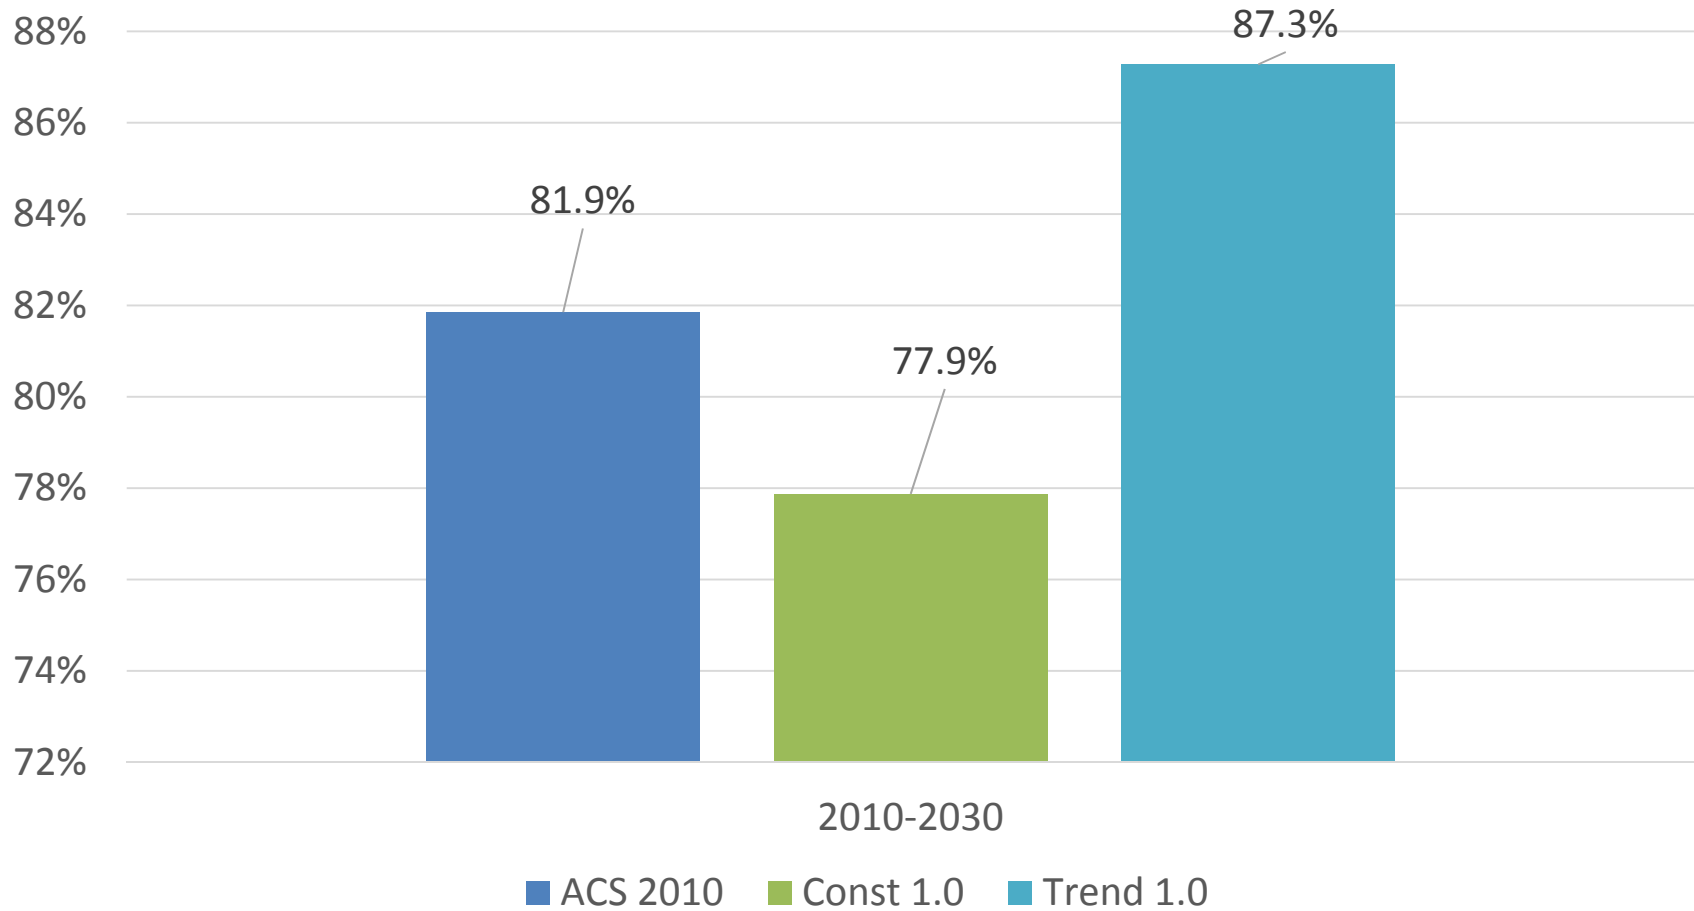

- Projecting the educational attainment of the future Texas labor force
- Estimating and projecting the need for adult basic education
- Estimating and projecting the transit urban gaps
- Projecting obesity and diabetes for the Texas population
- Identifying demographic, socioeconomic, geospatial, and housing characteristics related to household energy consumption
- Streamlining the waiver application process for nursing facility placement applications
- TxDOT One-Stop online demographic tool

# Some Findings

## Percent of Population with High School Degree or Higher, 2010 and 2030

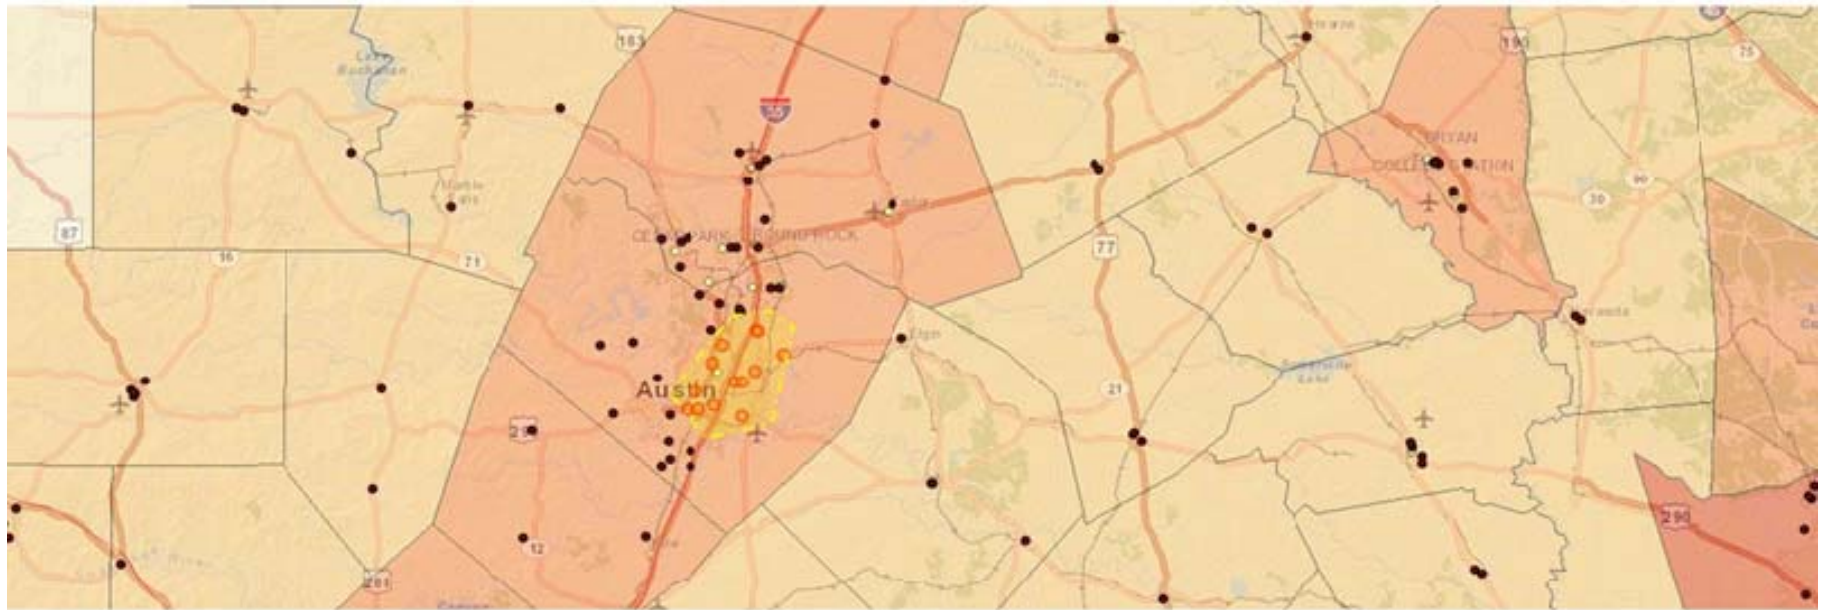

## Percent of Population with Bachelor's Degree or Higher, 2010 to 2030
