# Texas Population Projections Program

- TDC produces projections of the population of the **STATE** and all **COUNTIES** in the state by **age, sex and race/ethnicity**
- **The Cohort Component Model**
  - $Population_{(t)} = Population_0$ 
    - + Natural Increase<sub>t</sub> (Births<sub>t</sub> – Deaths<sub>t</sub>)
    - + Net Migrants<sub>t</sub> (In-mig<sub>t</sub> – Out-mig<sub>t</sub>)
  - *The components of population change (fertility, mortality, and net migration) are projected separately for each birth cohort (persons born in a given year)*

# Changes in the 2018 Population Projections

- Current: single age for ages 0 to 85+  
**New: single age for ages 0 to 95+**
- Current: 4 race/ethnic groups – Non-Hispanic White, Non-Hispanic Black, Hispanics and Non-Hispanic Other  
**New: 5 race/ethnic groups – separating Asians from Other (now includes Two or more Races, American Indian, Pacific Islander, and some other races)**
- Current: 3 migration scenarios based on 2000 -2010 migration trends – 0, 0.5, 1.0  
**New: an additional migration scenario based on 2010 – 2015 migration trends**
- Current: projecting the race/ethnicity based on the mother's race  
**New: an additional step to “re-allocate” a child's race/ethnicity**

# County Projections

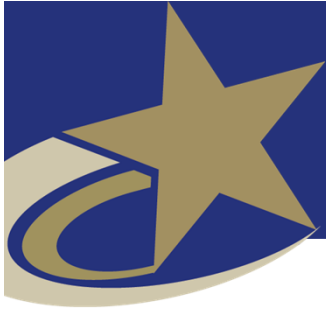

- Deaths
  - *Projecting age-sex-race specific **mortality/survival rates***
- Net Migrants
  - *Calculating **migration rates** 2010-2015 for each county*
  - *For smaller population groups (NHB, NHA, Other), collapse age groups*
- Births
  - *Projecting age – race specific **fertility rates** for women at risk (female 15 to 49) by rural/urban status*
  - *Projecting race of the newborns*
- “Special” Population
  - *Group quarter population, college and military population*

- Two ways to access projection products
  - Data available for downloads at <http://txsdc.utsa.edu/Data/TPEPP/Projections/>
  - Can be customized using the [Population Projections Tool](#)

# Future Plans

- **No new population projections until after 2020**
  - **Potential specialized projections that we could renew**
    - *Household, work force, enrollment, educational attainment*
    - *Poverty, disability, vehicle ownership*
    - *Obesity, diabetes, cardiovascular disease, physician need*
  - **Collaborations**
