In the Wake of the Pandemic, Texas Population Growth Ranks High in the U.S.
March 31, 2023

Texas's population surpassed 30 million, according to the U.S. Census Bureau's release of the 2022 Vintage population estimates. Six of the top 10 U.S. counties with the largest numerical growth and five of the 10 fastest growing counties are in Texas. The Texas Demographic Center has created an [infographic](#) highlighting these counties along with an [interactive map](#) that features the components of population change for each of the state's 254 counties.

Women's History Month 2023: Women in Texas
March 14, 2023

The Texas Demographic Center recognizes the contributions of women in Texas during Women's History Month. Explore our [infographic](#) highlighting the progress women have made in education and the workforce and where improvements can be made in closing the wage gap between men and women.

2021 Population Estimates

Housing Cost Burden in Texas, 2017-2021
December 12, 2022

The Texas Demographic Center analyzed Housing Cost Burden in the state and counties using data from the recently released 2021 American Community Survey 5-year estimates. The U.S. Department of Housing and Urban Development (HUD) identifies households with housing cost burden if they pay more than 30% of their monthly income on housing costs. This includes rent or mortgage payments, utilities, and other fees.
